

BIOSORB

STIFFENING & DEODORIZING ABSORBER
with visual neutralisation gauge

7 goods reasons for using BIOSORB

1. **Double** action: combination of expanded compounds with high absorption power and neutralises odours.
2. Neutralises the weak acids (pH 2-3), its GREEN colour in neutral environment and YELLOW colour in acid environment, allows you to follow the reaction of neutralisation and to collect the waste **safely**.
3. Absorbs **all liquids** by transforming them into semi-solid gel and allows you to collect the accidental fluid spills easily.
4. Effective: absorbs up to **60 to 80** times its water volume.
5. It has a fresh and pleasant eucalyptus **fragrance**.
6. **Ready to use**.
7. Easy to use thanks to its powdering **bottle**.

Particularly suitable for use in

Public buildings

Health

Leasures

Facilitates the cleaning and the manipulation of excrement and vomit in a hygienic way.

Transport: planes, boats, trains, cars, buses ...

Fire brigades, ambulances, taxis ...

Food trade: hotels, restaurants, bars, night clubs...

Health: hospitals, private hospitals, nurseries, retirement homes ...

Breeding: veterinary clinics, grooming salons, kennels ... |

Maintenance: plumbers, repairmen to collect accidental water spills on carpets.

General maintenance: technical department, janitorial services (hall, bottom of bins,...).

Characteristics	BRUSHES	Instructions for use
Composition: combination of absorber and neutraliser for stenches. Appearance: powder Odour: eucalyptus Colour: Sand when dry Green when wet and neutral Yellow when wet and acidic For more information: see MSDS.		Sprinkle BIOSORB on liquids to be absorbed. Leave the product on for few seconds until swelling, wait until a gel forms and in the case of acid products, until obtaining the green colour. Sweep and collect with a shovel. Comment: the product is not for oils and hydrocarbons. The absorption of strong acids (such as drain cleaner), strong bases or bleach will decrease the efficiency of BIOSORB. On light carpet, carry out a preliminary test.
