

DEVIT

PENETRATING LUBRICANT

With mini-spray nozzle or multi-directional nozzle

7 good reasons for using DEVIT

1. Multi-function product **6 in 1**.
2. **Penetrates:** Without damage to threaded parts.
3. **Lubricates:** very efficient thanks to **immediate penetration** and extreme mobility.
4. **Protects** manufactured parts during storage and prevents the formation of oxide.
5. **Degreases** mechanical parts, sheet steels, car engines...
6. **Displaces moisture:** Hydrophobic
7. **Detars:** dissolves every type of tar, asphalt.

Particularly suitable for use in:

Industry

Public buildings

Construction

Transport

Agriculture

Unblocks mechanisms, locks, bolts, nuts, screws, saws, studs, shafts, pulley hinges, faucets, rods, ...
Lubrication is slightly greasy. Cleans treated surfaces.

Degreases mechanical parts, sheet steels, car engines, trucks, chassis, public works equipment, farm machines, machine frameworks.

Dissolves tars, asphalts, bituminous mixtures, on the bottom of boxes, trucks chassis, skips.

Forms a hydrophobic protective film which prevents the penetration of water and humidity. Reduces rust.

Temporary protection for irons, cast irons and steels against rust, lasts for several days.

Prevents asphalt from sticking to the bottom of boxes, truck chassis and skips.

Characteristics	Instructions for use
<p>Average density <1 Net volume 500ml</p> <p>For more information, see MSDS.</p>	<p>Apply the product by pulverizing. Leave product to act before loosening. Ready-to-use, the spray can be used head up or head down with the mini-jet aerosol. With the 'Cobra' head, for the spraying with the extender, use the aerosol vertically, head up.</p>
