

HYDROCIDÉ

SURFACE WATER-PROOFING PRODUCT

7 good reasons for using HYDROCIDÉ

1. **Silicone free.** No visual impact on surface.
2. **Avoids** deposits and marks on the masonries.
3. **Delays** the ageing of facades.
4. Absolutely **neutral**.
5. The **waterproofing** fights off the appearance of mosses, moulds, lichens and bacteria.
6. **Micro-porous**, lets the supports breathe: stone, granite...
7. **Ready to use.**

Particularly suitable for use in:

Public buildings

Construction

For a **water-resistant treatment** of masonry, stones, roof tiles, bricks..

For **protection** of wood inside and outside.

For a **preventive anti-moss treatment** for walls, frontages, floors, paving-stones, tennis-courts, buildings as well as all porous surfaces.

For the **treatment** of damp, dirt and incrustations of micro-organisms, by keeping the natural aspect.

Waterproof while allowing to pass the steam.
