

PARVIT

IMMEDIATE DEFROSTING DOUBLE ACTION

7 good reasons for using PARVIT

1. **CURATIVE:** Defrosts all surfaces covered with ice, snow or frost.
2. **PREVENTIVE:** **Reduces** the adhesion of the frost considerably.
3. **SAFE DEFROSTING,** acts on any **surface** without risk of corrosion, such as metals, chromium, aluminium, paints, wood, varnishes, rubbers (in particular door joints), ABS...
4. It forms a **protective** film inside mechanisms (doors, locks, ...) and avoids freezing.
5. **Safe** product, leaves no stains or marks, doesn't damage tools.
6. **Practical:** multi-position use: upside down or upright.
7. Non-flammable propellant gas.

Particularly suitable for use in

Public buildings

Construction

Transport

Used on glazings, porches, windscreens of light or heavy vehicles, lighthouses, projectors...
Allows to quickly free locks, padlocks, hinges, joints welded by frost.

Characteristics	Instructions for use
<p>Composition: alcohol and antifreeze based liquid solution. Appearance : colourless liquid Volume net : 400 ml</p> <p>For more information, see MSDS.</p>	<p>Spray on the surface to be defrosted. Leave on for a few minutes without using the windscreen wipers. Repeat if necessary depending on thickness of ice. Do not drive immediately after using the product.
