

PULSAIR CRYO

COMPRESSED AIR CLEANER & ICER

7 good reasons for using PULSAIR CRYO

1. Double function aerosol. Used upside-down it's a refrigerant. Used right-side-up it's a compressed air dust remover.
2. Absolutely neutral and free from impurities.
3. Powerful cleaner.
4. Does not cause any condensation.
5. Does not oxidise treated surfaces.
6. The extension cable allows for a quick and accurate application.
7. Its « ICING » function brings the temperature down to -40°C .

Particularly suitable for use in

Industries

Public institutions

Services

« AIR SPRAY » function:

For dusting electronic equipment, hardware, computers, type writers, photocopiers, video equipment, cameras...
For drying clockwork components or high-precision parts.

Particularly recommended for mechanical electrical work, during emergency repairs.

« ICING » function:

Facilitates assembling or disassembling of small mechanical parts: ball-bearings, valve seats, crimped parts.

In electricity, electronics, PULSAIR CRYO allows for the detection of breakdowns in TV or radio electronic circuits.

PULSAIR CRYO protects against heating before fine welding.

In maintenance, PULSAIR CRYO helps to separate rubber joints or to remove chewing-gum from fabric, carpet and plastic materials.

Characteristics	Instructions for use
Net volume: 400 ml Propellant gas: Butane Propane For more information, see MSDS.	<u>« AIR SPRAY » function:</u> Use the aerosol ONLY « RIGHT-SIDE-UP » without shaking, whilst directing the spray towards the surface to be treated. <u>« ICING » function:</u> Use the extension cable if required. ONLY Use the aerosol « UPSIDE-DOWN ». Spray for as long as necessary to obtain the cooling effect. Do not spray on the skin (risk of cold burns). Use gloves. Avoid touching cooled parts immediately after spraying with bare hands. In some difficult cases, we suggest increasing the temperature range between the two parts. The outside part should be heated. To remove chewing-gum, spray for a few seconds and brush or scrape the surface immediately.
