

# TURBOCHOC

LIQUID CAUSTIC PIPE CLEARER

## 7 good reasons for using TURBOCHOC

1. **Fast** acting even difficult blockages.
2. Dissolves **fats, textiles, vegetable, organic matter**.
3. Contains **corrosion inhibitors** active on ferrous metals, copper, lead.
4. **Safe** for rubber joints and plastics (PVC) except aminoplaste.
5. Does **not emit** corrosive vapor.
6. Contains surfactants giving a better **dissolution** of deposits.
7. **Fast** penetration of the product.

## Particularly adapted to

Industry

Public institutions

Construction

Unblocks kitchen sinks, bathtubs, public urinals, WCs, washbasins, waste water pipes.

Characteristics	Instructions for use
<p>Composition: Sulphuric acid, corrosion inhibitors, surfactant agents. Density 1.84 ± 0.02</p> <p>Do not mix with another product and do not pour water into the product. Avoid projections on chromium, aluminium, zinc and light alloys. <b>Do not use on plastics AMINOPLASTES.</b></p> <p>Concerned by the regulation N°2019/1148 on marketing and using of explosive precursors.</p> <p>For more information, see MSDS.</p>	<p>The efficiency of the product will be obtained when the quantity of water is equal to the quantity of TURBOCHOC. Pour the TURBOCHOC slowly and carefully. The flow of the product in the water provokes a high temperature so it is necessary to pour the product slowly and gradually.</p> <p>It is recommended to cover the opening with an inverted container to prevent any upsurge. Leave to act for 5 minutes. Rinse abundantly with cold water. Do not mix with another product, even a drain clearer. Do not wait for the pipe to be blocked to act. In the case of an acid drain clearer, the recommendations of use clearly indicate that the product must be used only in big pipes and toilets except chemical toilets. Unblocked carefully and without squeezing the bottle. Do not transfer to another container. Do not reuse the empty bottle.</p>
