

VOLTAÏNET PAE

PHOTOVOLTAIC PANEL CLEANER

7 good reasons for using VOLTAÏNET PAE

1. VOLTAÏNET PAE is a cleaning **degreaser** specifically formulated for glass photovoltaic cell panels.
2. VOLTAÏNET PAE is an **eco-friendly** formula with a bioethanol base. It has no safety classification either for the user or for the environment.
3. **Does not affect** rubber, varnish, paint, glass, anodised or non-anodised aluminium, or any metals.
4. **Non-flammable**, can be used to clean surfaces that are still hot.
5. VOLTAÏNET PAE can be used with **foam gun** systems to dissolve soiling more easily.
6. Practical, VOLTAÏNET PAE is a **ready-to-use** product.
7. Enables **optimisation** of photovoltaic panel performance.

Particularly suitable for use in

Public buildings

Construction

VOLTAÏNET PAE is a specific cleaner for photovoltaic and thermal solar panels. It remove natural dirt which cover panels: bird droppings, dust, lichens, mosses, leaves, industrial pollutions (chimneys, vehicles...).

Characteristics	Instructions for use
<p>Appearance: Liquid Colour: colourless Odour: characteristic Density: 1 ± 0.02 pH pure: 10.5 ± 0.5 Flash point ($^{\circ}\text{C}$): $> 100^{\circ}\text{C}$ Surface treated with 1 litre of product: 7 to 10 m^2 Recommendation for optimal performance : once a year</p> <p>For more information, see MSDS.</p>	<p>Use VOLTAÏNET PAE undiluted. Use a foam gun system or PULV PRO sprayer. Leave the product on small surfaces for around 10 to 20 minutes and finish with a scraper or wipe with an EFICAPS. On large surfaces, spray using the PULV PRO sprayer, leave on, then rinse with limescale water to avoid marks. Due to many factors which can affect the results, our products are sold with the understanding that users will carry out spot tests to determine the suitability of these products for their own use.</p>
